Subject: Re: land application at Prairie State Gilts in Schuyler Co, IL

Hi Cheryl & Joan -

Thanks so much for the quick follow up. Yes...I got a call from Eric Ackerman at IEPA yesterday afternoon and he said he'd touch base with David Ginder, since the facility is in his inspection region.

Just FYI...There weren't any significant issues identified by neighboring residents when land application was taking place, although there was some on and off precipitation in the past few days. I let Eric know that because I don't know if IEPA necessarily needs to respond to any major problems. I mostly just wanted to give you the heads up that they were land applying, Cheryl, in case you were out doing inspections and wanted to check on things at that facility. This said, if IEPA does go out to do an inspection, I'd certainly be interested to know if things check out ok.

Thanks again for responding so quickly despite being on Spring Break, Cheryl! And thanks, Joan, for your help!

Best,

Exemption 6

Hi Exemption 6

I asked Joan Rogers contact IEPA to check it out. I am out of town for my kids Spring Break.

Sincerely,

Cheryl Burdett

Subject: land application at Prairie State Gilts in Schuyler Co, IL

Hi Cheryl

I just left you a voice mail on your office line to let you know that they are land applying at the Prairie State Gilts CAFO in Schuyler County.

I'm traveling right now and unfortunately did not bring my file with your cell number written down in it!

Anyway, It sounds like they just got started in a cornfield north of the facility today and so it's quite possible it could continue for the next day or so. Apparently it's very muddy out there, but they have been seen knifing the waste in.

Please do let me know if you get this message. I'll try to track down your cell number tomorrow if I don't hear back.

Thanks, Cheryl!
